## EMPIRE MEDIA CONSOLE 193-12-131

My how quickly our world changes now. From radio to movies to television in less than 50 years, and then today the ability to seemingly grab out of thin air a movie and watch it on your cell phone. At one time our relatives gathered around the radio; now we gather around our flat screens with satellite access to hundreds of channels. The world moves pretty fast these days and media moves even faster. Good thing that the Empire Media Console is as adaptable as they come. With four removable shelves, one stationary shelf, two drawers and an electrical outlet, the Media Console has all your viewing and gaming needs covered for today and years to come. Because the media may change, but our love affair with entertainment, from music to shows to cinema, is unending.
